

**McCormick & Company Ranked 23rd Most Sustainable Corporation and No. 1 in Food Products Industry on Corporate Knights 2018 Global 100 Sustainability Index**

January 23, 2018

SPRING, Md., Jan. 23, 2018 PRNewswire - McCormick & Company, Incorporated (NYSE: MCK), a global leader in flavor, was announced as the 23<sup>rd</sup> most sustainable corporation on the 2018 Corporate Knights Global 100 Sustainability Index released today at the World Economic Forum in Davos, Switzerland. McCormick was also ranked No. 1 in the Food Products Industry category for the second year on this highly reputable annual list released by Corporate Knights, a Canadian market research company.

"It's proud that our commitment to operating sustainably has been recognized along with our years in a row," said Lawrence Korman, Chairman, President and CEO. "This honor validates our efforts to embed sustainability throughout our operations, to provide transparency to our stakeholders and to positively impact communities where we live, source and work."

McCormick released its pledge to sustainability through its recent 2017 Purpose-led Performance (PLP) Report, which focuses on the company's efforts to deliver top-tier financial results while doing what's right for the long-term viability of people, communities and the planet. The PLP Report also includes nine 2025 goals aimed at improving health and well-being, building resilience in communities across the globe, and positively impacting the environment, the goals are informed by science and aligned with the United Nations' Sustainable Development Goals.

The Global 100 Index is recognized as a leader in transparency and industry best practices for sustainability. The companies named are among the top overall sustainability performers in their respective industries. Corporate Knights assesses all publicly traded companies with a market capitalization of at least \$2 billion to create the annual ranking. The Global 100 Index is determined by using 12 sustainability indicators, including energy, water and waste productivity, innovation capacity, employee turnover and safety performance.

About McCormick
