

McCormick Releases 2025 Purpose-led Performance Report, Strengthening Business Resilience and Long-Term Value Through Measurable Progress Across Its Commitments

June 5, 2026

HUNT VALLEY, Md., June 5, 2026 /PRNewswire/ -- McCormick & Company, Incorporated (NYSE: MKC), a global leader in flavor, today released its 2025 Purpose-led Performance (PLP) Report, demonstrating how sustainability investments are strengthening supply continuity, operational efficiency, and long-term growth. The report marks the completion of its 2025 commitments and highlights measurable progress across responsible sourcing, climate action, operational resilience, and employee wellbeing.

As McCormick completes its 2025 PLP goals, the Company continues to demonstrate leadership in the global flavor industry. Achieving 100% sustainably sourced volumes for its top five branded iconic ingredients enhances supply reliability and quality consistency, while investments in farming communities build resilience and secure long-term access to ingredients. At the same time, reducing environmental impact across its operations and value chain drive efficiency.

"In a year marked by continued change and global complexity, I am proud of the meaningful progress we have made in advancing our Purpose-led Performance commitments," said Brendan M. Foley, Chairman, President & Chief Executive Officer of McCormick & Company. "Our teams have remained focused and resilient, strengthening how we operate while delivering lasting value for our people, communities, and the planet."

Since 1889, McCormick has grown from a small Baltimore spice company into the global leader in flavor, guided by its purpose to make life more flavorful and its vision to be the world's most trusted source of flavor. Sustainability is increasingly embedded into its strategy and operations, reinforcing accountability, protecting brand trust, and supporting long-term growth.

"As I've stepped into the role of Chief Sustainability Officer, I am proud to build on the strong foundation we have established," said Kathy Rostkowski, Chief Sustainability Officer. "We are closing out our 2025 PLP commitments with encouraging progress and a clear view of where to go next. We are demonstrating that trust is earned when sustainability is practiced, not promised."

Key highlights from McCormick's 2025 PLP Report include:

- Achieved **100% sustainably sourced volumes** for its top five branded iconic ingredients: black pepper, cinnamon, oregano, red pepper, and vanilla.
- Positively impacted more than **57,000 farmers across 11 countries** since 2017, strengthening livelihoods and resilience in key sourcing regions.
- Reduced Scope 1 and 2 greenhouse gas emissions by **40%** and lowered Scope 3 emissions by **9%**, reinforcing climate readiness and operational resilience.
- Diverted **80% of facility waste** from landfill across global operations.
- Advanced its Power of People commitment, with **96% of employees completing Individual Development Plans** and **100% of employees having access to high-quality wellness programs** globally.

Through the progress highlighted in the report, McCormick continues to align sustainability with its business strategy to help secure the future of flavor. Looking ahead, the Company will focus on areas where it can make the greatest impact: advancing climate readiness, strengthening farmer resilience, and delivering healthy and sustainable choices that drive long-term value creation.
