
**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**
Washington, D.C. 20549

Form 10-Q

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934**

For Quarterly Period Ended February 28, 2011

Commission File Number 001-14920

McCORMICK & COMPANY, INCORPORATED

(Exact name of registrant as specified in its charter)

MARYLAND
(State or other jurisdiction of
incorporation or organization)

52-0408290
(I.R.S. Employer
Identification No.)

18 Loveton Circle, P. O. Box 6000, Sparks, MD
(Address of principal executive offices)

21152-6000
(Zip Code)

Registrant's telephone number, including area code (410) 771-7301

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "accelerated filer," "large accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer Accelerated Filer
Non-Accelerated Filer Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

	<u>Shares Outstanding</u> <u>February 28, 2011</u>
Common Stock	12,511,283
Common Stock Non-Voting	119,985,315

McCORMICK & COMPANY, INCORPORATED
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all the information and notes required by United States generally accepted accounting principles for complete financial statements. In our opinion, the accompanying condensed consolidated financial statements contain all adjustments, which are of a normal and recurring nature, necessary to present fairly the financial position and the results of operations for the interim periods.

The results of consolidated operations for the three month period ended February 28, 2011 are not necessarily indicative of the results to be expected for the full year. Historically, our net sales, net income and cash flow from operations are lower in the first half of the fiscal year and increase in the second half. The increase in net sales, net income and cash flow from operations in the second half of the year is mainly due to the consumer business cycle, where customers typically purchase more products in the fourth quarter due to the holiday season.

For further information, refer to the consolidated financial statements and notes included in our Annual Report on Form 10-K for the year ended November 30, 2010.

Accounting and Disclosure Changes

There were no significant accounting pronouncements issued recently that are expected to materially impact us.

2. FINANCIAL INSTRUMENTS

We use derivative financial instruments to enhance our ability to manage risk, including foreign currency and interest rate exposures, which exist as part of our ongoing business operations. We do not enter into contracts for trading purposes, nor are we a party to any leveraged derivative instrument. The use of derivative financial instruments is monitored through regular communication with senior management and the use of written guidelines.

As of February 28, 2011, the maximum time frame for our foreign exchange forward contracts is 10 months. For all derivatives, the net amount of accumulated other comprehensive income expected to be reclassified in the next 12 months is \$3.3 million as a reduction of earnings.

[Table of Contents](#)

All derivatives are recognized at fair value in the balance sheet and recorded in either current or noncurrent other assets or other accrued liabilities or other long-term liabilities depending upon nature and maturity.

The following table discloses the fair values of derivative instruments on our balance sheet (in millions):

As of February 28, 2011

	Asset Derivatives			Liability Derivatives		
	Balance Sheet Location	Notional Amount	Fair Value	Balance Sheet Location	Notional Amount	Fair Value
Interest rate contracts	Other current assets	\$ 100.0	\$ 14.8			
Foreign exchange contracts	Other current assets	64.3	0.7	Other accrued liabilities	\$ 137.7	\$ 3.3
Total			<u>\$ 15.5</u>			<u>\$ 3.3</u>

As of February 28, 2010

	Asset Derivatives			Liability Derivatives		
	Balance Sheet Location	Notional Amount	Fair Value	Balance Sheet Location	Notional Amount	Fair Value
Interest rate contracts	Other current assets	\$ 100.0	\$ 14.1			
Foreign exchange contracts	Other current assets	202.7	2.9	Other accrued liabilities	\$ 83.3	\$ 2.0
Total			<u>\$ 17.0</u>			<u>\$ 2.0</u>

As of November 30, 2010

	Asset Derivatives			Liability Derivatives		
	Balance Sheet Location	Notional Amount	Fair Value	Balance Sheet Location	Notional Amount	Fair Value
Interest rate contracts	Other current assets	\$ 100.0	\$ 19.2			
Foreign exchange contracts	Other current assets	4.5	0.2	Other accrued liabilities	\$ 203.7	\$ 2.8
Total			<u>\$ 19.4</u>			<u>\$ 2.8</u>

[Table of Contents](#)

The following tables disclose the impact of derivative instruments on our other comprehensive income (OCI), accumulated other comprehensive income (AOCI) and our income statement for the quarters ending February 28, 2011 and 2010 (in millions):

<u>Fair Value Hedges</u> Derivative	Income statement location	Income or (Expense)	
		Feb 2011	Feb 2010
Interest rate contracts	Interest expense	\$ 1.2	\$ 1.2

Cash Flow Hedges

Derivative	Gain or (Loss) recognized in OCI		Income statement location	Gain or (Loss) reclassified from AOCI	
	Feb 2011	Feb 2010		Feb 2011	Feb 2010
Terminated interest rate contracts	—	—	Interest expense	\$ (0.3)	\$ (0.3)
Foreign exchange contracts	\$ (1.8)	\$ 1.3	Cost of goods sold	(0.6)	0.1
Total	\$ (1.8)	\$ 1.3		\$ (0.9)	\$ (0.2)

The amount of gain or loss recognized in income on the ineffective portion of derivative instruments is not material. The amounts noted in the tables above for OCI do not include any adjustments for the impact of deferred income taxes.

3. FAIR VALUE MEASUREMENTS

Fair value can be measured using valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). Accounting standards utilize a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

[Table of Contents](#)

- Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs that reflect the reporting entity's own assumptions.

Our population of financial assets and liabilities subject to fair value measurements on a recurring basis are as follows (in millions):

	Fair Value	Fair value measurements using fair value hierarchy As of February 28, 2011		
		Level 1	Level 2	Level 3
Assets				
Cash and cash equivalents	\$ 40.6	\$ 40.6	\$ —	\$ —
Insurance contracts	55.7	—	55.7	—
Bonds & other long-term investments	14.1	14.1	—	—
Interest rate derivatives	14.8	—	14.8	—
Foreign currency derivatives	0.7	—	0.7	—
Total	\$ 125.9	\$ 54.7	\$ 71.2	\$ —
Liabilities				
Foreign currency derivatives	\$ 3.3	\$ —	\$ 3.3	\$ —

	Fair Value	Fair value measurements using fair value hierarchy As of February 28, 2010		
		Level 1	Level 2	Level 3
Assets				
Cash and cash equivalents	\$ 21.9	\$ 21.9	\$ —	\$ —
Insurance contracts	40.5	—	40.5	—
Bonds & other long-term investments	13.9	13.9	—	—
Interest rate derivatives	14.1	—	14.1	—
Foreign currency derivatives	2.9	—	2.9	—
Total	\$ 93.3	\$ 35.8	\$ 57.5	\$ —
Liabilities				
Foreign currency derivatives	\$ 2.0	\$ —	\$ 2.0	\$ —

Table of Contents

	Fair Value	Fair value measurements using fair value hierarchy		
		Level 1	Level 2	Level 3
As of November 30, 2010				
Assets				
Cash and cash equivalents	\$ 50.8	\$ 50.8	\$ —	\$ —
Insurance contracts	52.8	—	52.8	—
Bonds & other long-term investments	13.0	13.0	—	—
Interest rate derivatives	19.2	—	19.2	—
Foreign currency derivatives	0.2	—	0.2	—
Total	\$ 136.0	\$ 63.8	\$ 72.2	\$ —
Liabilities				
Foreign currency derivatives	\$ 2.8	\$ —	\$ 2.8	\$ —

The fair values of insurance contracts are based upon the underlying values of the securities in which they are invested and are from quoted market prices from various stock and bond exchanges. The fair values of bonds and other long-term investments are based on quoted market prices from various stock and bond exchanges. The fair values for interest rate and foreign currency derivatives are based on quotations from various banks for similar instruments using models with market based inputs.

4. PENSION AND POSTRETIREMENT BENEFITS

The following table presents the components of our pension expense of the defined benefit plans for the three months ended February 28, 2011 and 2010 (in millions):

	United States		International	
	2011	2010	2011	2010
Defined benefit plans				
Service cost	\$ 3.8	\$ 3.2	\$ 1.5	\$ 1.4
Interest costs	7.6	7.3	3.1	2.9
Expected return on plan assets	(8.5)	(8.0)	(3.9)	(3.4)
Amortization of prior service costs	—	—	0.1	0.1
Recognized net actuarial loss	3.3	3.0	0.6	0.3
Total pension expense	\$ 6.2	\$ 5.5	\$ 1.4	\$ 1.3

During the three months ended February 28, 2011 and 2010, we made \$32.0 million and \$30.0 million, respectively, in total contributions to our pension plans. Total contributions to our pension plans in 2011 are expected to be approximately \$46 million. Total contributions to our pension plans in fiscal year 2010 were \$49.5 million.

[Table of Contents](#)

The following table presents the components of our other postretirement benefits expense (in millions):

	Three months ended February 28,	
	2011	2010
Other postretirement benefits		
Service cost	\$ 1.1	\$ 1.2
Interest costs	1.1	1.3
Amortization of prior service costs	(1.4)	(1.5)
Amortization of losses	0.2	0.4
Total other postretirement expense	<u>\$ 1.0</u>	<u>\$ 1.4</u>

5. STOCK-BASED COMPENSATION

For the three months ended February 28, 2011 and 2010, we recorded \$2.1 million and \$2.0 million, respectively, of stock-based compensation expense in selling, general and administrative expense. Our 2011 annual grant of stock options and restricted stock units (RSU) will occur in the second quarter, similar to the 2010 annual grant.

The following is a summary of all option activity for the three months ended February 28, 2011 and 2010:

(shares in millions)	2011		2010	
	Number of Shares	Weighted-Average Exercise Price	Number of Shares	Weighted-Average Exercise Price
Outstanding at beginning of period	7.4	\$ 32.01	11.3	\$ 29.45
Exercised	(0.6)	26.93	(0.9)	20.45
Cancelled	—	—	(0.1)	34.26
Outstanding at end of February	<u>6.8</u>	32.49	<u>10.3</u>	30.23
Exercisable at end of February	<u>4.6</u>	\$ 31.40	<u>8.6</u>	\$ 31.73

As of February 28, 2011 the intrinsic value (the difference between the exercise price and the market price) for all options outstanding was \$102.6 million and for exercisable options was \$75.0 million. The total intrinsic value of all options exercised during the three months ended February 28, 2011 and 2010 was \$11.3 million and \$15.1 million, respectively.

The following is a summary of all of our RSU activity for the three months ended February 28, 2011 and 2010:

(shares in thousands)	2011		2010	
	Number of Shares	Weighted-Average Grant-Date Fair Value	Number of Shares	Weighted-Average Grant-Date Fair Value
Outstanding at beginning of period	289	\$ 35.42	353	\$ 32.40
Vested	(2)	\$ 36.21	(1)	\$ 32.79
Forfeited	(2)	\$ 35.99	(1)	\$ 31.43
Outstanding at end of February	<u>285</u>	\$ 35.41	<u>351</u>	\$ 32.40

6. INCOME TAXES

There were no significant changes to unrecognized tax benefits during the three months ended February 28, 2011 (which was \$20.7 million at November 30, 2010).

[Table of Contents](#)

Income taxes for the first quarter of 2011 include \$0.8 million in discrete tax benefits for the adjustment of an estimate used in a prior year tax provision.

Income taxes for the first quarter of 2010 include \$1.9 million of discrete tax benefits for the settlement of a tax audit and the change in deferred tax liabilities due to a Canadian tax rate decrease.

7. EARNINGS PER SHARE AND STOCK ISSUANCES

The following table sets forth the reconciliation of average shares outstanding (in millions):

	Three months ended February 28,	
	2011	2010
Average shares outstanding – basic	132.9	132.3
Effect of dilutive securities:		
Stock options, Restricted Stock Units (RSUs) and employee stock purchase plan	1.7	1.7
Average shares outstanding – diluted	<u>134.6</u>	<u>134.0</u>

The following table sets forth the stock options and RSUs for the three months ended February 28, 2011 and 2010 which were not considered in our earnings per share calculation since they were anti-dilutive.

	Three months ended February 28,	
	2011	2010
Anti-dilutive securities	0.1	3.1

The following table sets forth the common stock activity for the three months ended February 28, 2011 and 2010 under the Company's stock option and employee stock purchase plans and the repurchases of common stock under its stock repurchase program (in millions):

	Three months ended February 28,	
	2011	2010
Shares issued under stock option and employee stock purchase plans and RSUs	0.5	0.7
Shares repurchased in connection with the stock repurchase program	1.1	—

As of February 28, 2011, \$309 million remained of the \$400 million share repurchase authorization that had been authorized by the Board of Directors in June 2010.

[Table of Contents](#)

8. COMPREHENSIVE INCOME

The following table sets forth the components of comprehensive income (in millions):

	Three months ended February 28,	
	2011	2010
Net income	\$ 76.8	\$ 67.9
Other comprehensive income (loss), (net of tax):		
Pension and other postretirement costs, net of tax	(0.3)	3.8
Foreign currency translation adjustments	68.5	(100.8)
Derivative financial instruments, net of tax	(0.4)	0.8
Comprehensive income (loss)	<u>\$ 144.6</u>	<u>\$ (28.3)</u>

The other comprehensive income (loss) amounts in the table above are net of tax expense of \$0.2 million and \$1.4 million for the three months ended February 28, 2011 and 2010, respectively.

The following table sets forth the components of accumulated other comprehensive income, net of tax where applicable (in millions):

	Feb 28, 2011	Feb 28, 2010	November 30, 2010
Foreign currency translation adjustment	\$ 253.2	\$ 192.5	\$ 184.7
Unrealized gain (loss) on foreign currency exchange contracts	(1.3)	0.3	(0.7)
Unamortized value of settled interest rate swaps	(5.7)	(6.0)	(5.9)
Pension and other postretirement costs	(182.1)	(173.8)	(181.8)
Accumulated other comprehensive income	<u>\$ 64.1</u>	<u>\$ 13.0</u>	<u>\$ (3.7)</u>

9. BUSINESS SEGMENTS

We operate in two business segments: consumer and industrial. The consumer and industrial segments manufacture, market and distribute spices, herbs, seasonings, specialty foods and flavors throughout the world. Our consumer segment sells to retail outlets, including grocery, mass merchandise, warehouse clubs, discount and drug stores under the “McCormick” brand and a variety of brands around the world, including “Lawry’s”, “Zatarain’s”, “Simply Asia”, “Thai Kitchen”, “Old Bay”, “El Guapo”, “Ducros”, “Vahine”, “Silvo”, “Schwartz”, “Club House”, “Billy Bee” and “Aeroplane”. Our industrial segment sells to food manufacturers and the foodservice industry both directly and indirectly through distributors.

In each of our segments, we produce and sell many individual products which are similar in composition and nature. With their

[Table of Contents](#)

primary attribute being to provide flavor, we regard the products within each of our segments to be fairly homogenous. It is impracticable to segregate and identify sales and profits for individual product lines.

We measure segment performance based on operating income. Although the segments are managed separately due to their distinct distribution channels and marketing strategies, manufacturing and warehousing are often integrated to maximize cost efficiencies. We do not segregate jointly utilized assets by individual segment for internal reporting, evaluating performance or allocating capital. Because of manufacturing integration for certain products within the segments, products are not sold from one segment to another but rather inventory is transferred at cost. Intersegment sales are not material.

	<u>Consumer</u>	<u>Industrial</u> (in millions)	<u>Total</u>
<u>Three months ended February 28, 2011</u>			
Net sales	\$ 454.1	\$ 328.7	\$782.8
Operating income	86.9	23.7	110.6
Income from unconsolidated operations	5.9	2.0	7.9
<u>Three months ended February 28, 2010</u>			
Net sales	\$ 453.6	\$ 310.9	\$764.5
Operating income	79.7	21.1	100.8
Income from unconsolidated operations	5.2	1.1	6.3

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

Our Business

We are a global leader in flavor, with the manufacturing, marketing and distribution of spices, seasonings, specialty foods and flavors to the entire food industry. Customers range from retail outlets and food manufacturers to food service businesses. Our major sales, distribution and production facilities are located in North America and Europe. Additional facilities are based in Mexico, Central America, Australia, China, Singapore, Thailand and South Africa. Annually, approximately 40% of our sales have been outside of the United States.

We operate in two business segments, consumer and industrial. Consistent with market conditions in each segment, our consumer business has a higher overall profit margin than our industrial business. In 2010, the consumer business contributed 60% of sales and 79% of operating income and the industrial business contributed 40% of sales and 21% of operating income. Across both segments, we have the customer base and product breadth to participate in all types of eating occasions, whether it is cooking at home, dining out, purchasing a quick service meal or enjoying a snack. We offer consumers a range of products from premium to value-priced.

Our Strategy

Our strategy is straightforward – to increase sales and profits by investing in the business and to fund these investments with improved margins. This simple strategy has been driving our success for more than a decade and is our plan for growth in the future.

Improving Margins – We are improving margins with cost savings related to our Comprehensive Continuous Improvement (CCI) program. With CCI, each business unit develops cost reduction opportunities and sets specific goals. Our projects fall into the areas of cost optimization, cost avoidance and productivity that include streamlining processes. However the only amounts we report are actual cost reductions where costs have decreased from the prior year. In 2011 CCI-related cost savings are projected to be at least \$40 million, with a large portion impacting our cost of goods sold. We are also improving margins with our acquisition of strong consumer brands and introduction of more value-added industrial products.

While we continue to experience an environment of volatile costs for many raw and packaging materials, in recent years we have offset this impact with a combination of pricing and cost savings initiatives.

Investing in the Business – We are investing in our consumer business with new products, new packaging and greater marketing support. In 2010, we increased brand marketing by \$21 million, or 14%, to support the launch of Recipe Inspirations, Perfect Pinch and other new products. We have planned further increases in brand marketing support in 2011 in line with our sales growth.

As an industry leader, McCormick brings innovative ideas to consumers and to industrial customers. Our 2011 new products for our consumer business include grilling, grinders and salad toppings in the U.S., “Flavourful” seasoning blends in Canada, new “Flavourful” varieties in the U.K. and new Vahine dessert items in France. We are achieving further growth by introducing our most successful new products in other regions. Examples include the introduction of slow cookers into the U.K., “Recipe Inspirations” in Canada and Thai Chili Sauce in markets outside of China. Many of the new products currently being developed provide convenience, authentic ethnic flavors, a healthy profile and great taste. Industrial customers are particularly interested in more natural flavor solutions that utilize our expertise in spices and herbs. We founded the McCormick Science Institute in 2007 to advance the health benefits of spices and herbs.

Through acquisitions we are adding leading brands to extend our reach into new geographic regions where we currently have little

[Table of Contents](#)

or no distribution. We have a particular interest in emerging markets that offer high growth potential, such as India and China. In our developed markets, we are seeking consumer brands that have a defensible market position and meet a growing consumer trend.

Increasing Sales and Profits – Our long-term goals are to grow sales 4 to 6% and increase earnings per share 9 to 11%. Long-term, we expect to achieve mid-single digit sales growth with one-third from category growth, share gains and new distribution, one-third from product innovation and one-third from acquisitions. While no acquisitions are included in our 2011 sales projections, we expect our pricing actions, in response to higher material costs, to increase sales approximately 3%. As a result of these pricing actions plus increases in volume and product mix, we project 5 to 7% sales growth in local currency for 2011, with an additional 1% of growth from favorable currency exchange rates based on prevailing rates. Also in 2011, we expect to achieve earnings per share of \$2.80 to \$2.85. This is an increase of 6 to 8% on a comparable basis, excluding the 2010 impact of the reversal of a significant tax accrual. This rate of growth is below our long-term objective for the business because of other items that favorably affected our 2010 tax rate, causing a significant increase in our expected 2011 tax rate when compared to 2010. In addition to increased sales and profit, our business generates strong cash flow (we generated \$388 million in cash flow from operations in 2010). Long-term, we expect higher cash flow and more efficient asset utilization as we grow net income and achieve further reductions in our working capital. We are increasing shareholder return with consistent dividend payments. We have paid dividends every year since 1925 and increased the dividend in each of the past 25 years.

RESULTS OF OPERATIONS – COMPANY

(in millions)	Three months ended February 28,	
	2011	2010
Net sales	\$782.8	\$764.5
Percent increase	2.4%	
Gross profit	\$328.2	\$310.2
Gross profit margin	41.9%	40.6%

The sales increase of 2.4% for the first quarter includes a 0.2% unfavorable impact from foreign currency exchange rates. Excluding the foreign currency impact, we grew sales 2.6%, which was the result of pricing actions taken in response to increased raw and packing material costs. Volume and product mix was comparable to the prior year period. For the consumer business, volume and product mix declined 1.9% as increases from product introductions, brand marketing support and new distribution in the Americas and Asia/Pacific regions were more than offset by

[Table of Contents](#)

weakness in the EMEA (Europe, Middle East and Africa region) and the estimated impact of a shift in sales from the first quarter of 2011 to the fourth quarter of 2010. As indicated in our 2010 annual report, this shift in sales was estimated to be \$10 million and was largely the result of U.S. customer purchases in advance of a late 2010 price increase. For the industrial business, increased customer demand in the Americas and EMEA regions included new products and drove a 2.6% increase in volume and product mix.

Gross profit for the first quarter of the year increased by 5.8% over the comparable period from last year, which was attributed to the increase in net sales coupled with a gross profit margin improvement of 130 basis points. The rise in our gross profit margin was driven by the benefits of our CCI program, improved business mix and the impact of product recall costs recorded last year. In the second half of 2010 we experienced increases in raw material and packaging costs. This higher level of costs have continued into the first quarter of 2011 and we expect them to persist through 2011. At the end of 2010 and into this first quarter of 2011, we have implemented price increases to partially offset these cost increases with the remainder to be offset by CCI savings. We estimate that for 2011 pricing will increase sales by approximately 3%, raw materials and packaging costs will increase 7 to 8%, CCI savings will benefit cost of sales and that in total our gross margin will decrease slightly. Also, included in our cost of goods sold for the first quarter of 2010 are \$5 million of product recall costs related to an ingredient from a third-party supplier that affected a number of food companies.

(in millions)	Three months ended February 28,	
	2011	2010
Selling, general & administrative expense (SG&A)	\$ 217.6	\$ 209.4
Percent of net sales	27.8%	27.4%

The increase in SG&A in dollars and as a percent of net sales is primarily driven by higher brand marketing support. For the first quarter of 2011, we have increased our marketing support costs by \$4.3 million or 12% over the prior year. The Company anticipates increasing its marketing support during 2011 in line with its expected net sales increase of 6 to 8%.

(in millions)	Three months ended February 28,	
	2011	2010
Interest expense	\$ 12.2	\$ 12.3
Other income, net	0.5	0.6

[Table of Contents](#)

Interest expense for the first quarter of 2011 was even with that of the prior year. The benefit from slightly lower average debt balances in 2011 compared to 2010 was mostly offset by the impact of slightly higher interest rates for 2011 compared to 2010.

(in millions)	Three months ended February 28,	
	2011	2010
Income from consolidated operations before income taxes	\$98.9	\$ 89.1
Income taxes	30.0	27.5
Effective tax rate	30.3%	30.9%

The effective tax rate for the first quarter of 2011 includes \$0.8 million in discrete tax benefits for the adjustment of an estimate used in a prior year tax provision. The effective tax rate for the first quarter of 2010 includes \$1.9 million in discrete tax benefits for the settlement of a tax audit and the change in deferred tax liabilities due to a Canadian tax rate decrease. The decrease in the effective tax rate for the first quarter of 2011 as compared to the same period for 2010 results from a reduction in the underlying tax rate due to a change in earnings mix and tax credits. We are projecting a tax rate of approximately 31% for 2011.

(in millions)	Three months ended February 28,	
	2011	2010
Income from unconsolidated operations	\$ 7.9	\$ 6.3

Income from unconsolidated operations for the first quarter 2011 increased \$1.6 million compared to the same period in 2010. This increase was due to the performance of our joint venture in Mexico and income from our Eastern joint venture in India, which was completed late in fiscal year 2010. For the full year 2011, we expect income from unconsolidated operations to be slightly lower than full year 2010. As we enter into the second quarter, we expect greater pressure on earnings from higher costs for soybean oil (a main ingredient for mayonnaise which is the leading product for the joint venture in Mexico) and other key materials.

The following table outlines the major components of the change in diluted earnings per share from 2010 to 2011:

	Three months ended February 28,
2010 Earnings per share – diluted	\$.51
Higher operating income	.05
Higher unconsolidated income	.01
2011 Earnings per share – diluted	<u>\$.57</u>

[Table of Contents](#)

RESULTS OF OPERATIONS – SEGMENTS

CONSUMER BUSINESS

(in millions)	Three months ended February 28,	
	<u>2011</u>	<u>2010</u>
Net sales	\$454.1	\$453.6
Percent growth	0.1%	
Operating income	86.9	79.7
Operating income margin	19.1%	17.6%

The 0.1% increase in sales in the first quarter of 2011 as compared to the first quarter of 2010 included an unfavorable impact of 1.1% from foreign currency rates. Excluding the foreign currency impact, we grew sales 1.2%, with increased pricing of 3.1% that was offset in part by unfavorable volume and product mix of 1.9%. An estimated \$10 million of sales shifted from the first quarter of 2011 to the fourth quarter of 2010 largely as a result of certain U.S. customers which purchased product in advance of a price increase. This shift reduced sales in the first quarter of 2011 an estimated 2.2%.

In the Americas, sales increased 3.4% in the first quarter of 2011, compared to the first quarter of 2010, including a 0.5% increase due to favorable foreign exchange rates. Excluding the foreign exchange impact, we grew sales 2.9%. Most of this increase came from our pricing actions. This is the part of our business that was affected by the sales shift from the first quarter 2011 into the fourth quarter of 2010. This shift lowered consumer business sales in the Americas by 3.3% in the first quarter of 2011. This decline was offset by an increase in volume and product mix driven largely by higher unit sales of slow cooker seasoning mixes products, Zatarain's branded items and our Grill Mates line, as well as increased sales to warehouse clubs in both the U.S. and Canada.

First quarter 2011 sales in EMEA decreased 9.7% compared to the first quarter of 2010, including an unfavorable impact of 6.4% from foreign exchange rates. The 5.6% reduction from lower volume and product mix was partially offset by a 2.3% impact from higher pricing. We continued to face weakness in our smaller markets largely as a result of a poor economy and competitive conditions. These markets account for about 20% of EMEA sales. Also, following a stronger performance in 2010, we saw a downturn in sales this quarter in the U.K. and France. In response to this situation, we are redirecting a portion of our marketing funds toward promotional activity to deliver value to the consumer. We are also accelerating the roll-out of our 2011 new products and are improving the in-store merchandising of our brands, including the roll-out of our attractive new Vahine merchandising display in France and secondary placement of Schwartz products in the U.K.

[Table of Contents](#)

In the Asia/Pacific region, sales increased 11.2% in the first quarter of 2011, compared to the first quarter of 2010, with a 6.1% increase coming from favorable foreign exchange rates. Excluding the foreign currency impact, we grew sales 5.1% with 3.5% coming from higher volume and product mix and pricing adding 1.6%. This result was led by an 8.6% increase in China in local currency, with higher condiment sales driven by new products, greater market penetration and increased consumer demand.

First quarter 2011 operating income for our consumer business increased \$7.2 million, or 9.0%, compared to the first quarter of 2010. This increase far exceeded the increase in sales due mainly to additional CCI-related cost savings in 2011, a favorable mix of businesses and the \$2.3 million product recall costs recorded last year.

INDUSTRIAL BUSINESS

(in millions)	Three months ended February 28,	
	2011	2010
Net sales	\$328.7	\$310.9
Percent increase	5.7%	
Operating income	23.7	21.1
Operating income margin	7.2%	6.8%

The first quarter sales increase of 5.7% from the first quarter of 2010 includes a favorable foreign exchange rate impact of 1.2%. Excluding this impact of foreign currency, sales increased 4.5%. Volume and product mix increased sales by 2.6%, while higher pricing added 1.9% to sales.

In the Americas, sales increased 6.6%, which included a favorable impact of 1.0% from foreign currency rates. Increased demand for our spices and seasonings was led by food manufacturers in both the U.S. and Canada, which included new product introductions. Sales to the food service industry were comparable to the first quarter of 2010. We did have increased sales of branded food service items to the certain broadline distributors, and expect sales to quick service restaurants to increase later in 2011 with new product launches and distribution gains.

In EMEA, industrial sales posted another consecutive quarter of strong sales growth. EMEA industrial sales increased 3.3%, and increased 4.1% excluding the impact from unfavorable foreign exchange rates. Volume and product mix was the primary driver, accounting for a 2.7% increase. Pricing actions added 1.4% to sales for the quarter. Demand from quick service restaurants continues to be the key sales driver in this region.

[Table of Contents](#)

In the Asia/Pacific region, industrial sales increased 4.6% in the first quarter of 2011 compared to the first quarter of 2010, which included a favorable foreign exchange rate impact of 6.0%. Excluding this impact of foreign currency, sales declined 1.4%. Lower volume and product mix accounted for a 2.3% decrease, while higher pricing added 0.9% to sales. In this region, quick service restaurants are the largest part of our business. Heading into 2011, we are seeing these customers shifting emphasis to core items rather than limited time offers and other innovation.

First quarter 2011 operating income for our industrial business increased \$2.6 million, or 12.3%, compared to the first quarter of 2010. This increase was well above the sales increase as a result of \$2.7 million product recall costs recorded last year, higher sales and additional CCI-related cost savings in 2011. These favorable variances were partially offset by increases in marketing support and product development behind our U.S. branded food service products.

MARKET RISK SENSITIVITY

Foreign Exchange Risk

We utilize foreign currency exchange contracts to enhance our ability to manage foreign currency exchange risk. We do not enter into contracts for trading purposes, nor are we a party to any leveraged derivative instrument and all derivatives are designated as hedges.

The following table sets forth the notional values and unrealized gain or (loss) of the portfolio of our forward foreign currency contracts (in millions):

	<u>Feb 28,</u> <u>2011</u>	<u>Feb 28,</u> <u>2010</u>	<u>November 30,</u> <u>2010</u>
Notional value	\$202.0	\$286.0	\$ 208.2
Unrealized gain (loss)	(2.6)	0.9	(2.6)

The quarterly fluctuation in notional value is a result of our decisions on foreign currency exposure coverage, based on our foreign currency exposures.

Interest Rate Risk

We manage our interest rate exposure by entering into both fixed and variable rate debt arrangements. In addition, we use interest rate swaps to minimize worldwide financing costs and to achieve a desired mix of fixed and variable rate debt. We do not enter into contracts for trading purposes, nor are we a party to any leveraged derivative instrument and all derivatives are designated as hedges. As of February 28, 2011, we had a total of \$100 million, notional value, of interest rate swap contracts outstanding. The fair value of our interest rate swaps was a \$14.8

[Table of Contents](#)

million gain as of February 28, 2011, compared to a \$19.2 million gain as of November 30, 2010. The change in fair values is due to changes in interest rates.

Commodity Risk

We purchase certain raw materials which are subject to price volatility caused by weather, market conditions, growing and harvesting conditions, governmental actions and other factors beyond our control. Our most significant raw materials are dairy products, pepper, capsicums (red peppers and paprika), onion, wheat, soybean oil and garlic. While future movements of raw material costs are uncertain, we respond to this volatility in a number of ways, including strategic raw material purchases, purchases of raw material for future delivery and customer price adjustments. We have not used derivatives to manage the volatility related to this risk.

Credit Risk

The customers of our consumer business are predominantly food retailers and food wholesalers. Consolidations in these industries have created larger customers, some of which are highly leveraged. In addition, competition has increased with the growth in alternative channels including mass merchandisers, dollar stores, warehouse clubs and discount chains. This has caused some customers to be less profitable and increased our exposure to credit risk. Current credit markets are highly volatile and some of our customers and counterparties are highly leveraged. We continue to closely monitor the credit worthiness of our customers and counterparties. We feel that our allowance for doubtful accounts properly recognizes trade receivables at net realizable value. We consider nonperformance credit risk for other financial instruments to be insignificant.

CONTRACTUAL OBLIGATIONS AND COMMERCIAL COMMITMENTS

As of February 28, 2011, there have been no material changes in our contractual obligations and commercial commitments outside the ordinary course of business since November 30, 2010.

LIQUIDITY AND FINANCIAL CONDITION

	Three months ended February 28,	
	2011	2010
	(in millions)	
Net cash used in operating activities	\$ (23.1)	\$ (5.1)
Net cash used in investing activities	(14.2)	(8.8)
Net cash provided by financing activities	23.2	8.4

[Table of Contents](#)

In the statement of cash flows, the changes in operating assets and liabilities are presented excluding the translation effects of changes in foreign currency exchange rates, as these do not reflect actual cash flows. Accordingly, the amounts in the statement of cash flows do not agree with changes in the operating assets and liabilities that are presented in the balance sheet.

Due to the cyclical nature of the business, we generate much of our cash flow in the fourth quarter of the fiscal year.

Operating Cash Flow – Cash from operations is typically lower in the first and second quarters and then builds in the third and fourth quarters of our fiscal year. In the first quarter of 2011 cash flow from operations was a negative \$23.1 million, compared to a negative \$5.1 million in the first quarter of 2010. The decline in operating cash flow is driven by a higher level of inventory in 2011 as compared to last year. The increase in inventory levels is primarily the result of higher material cost, new products and new distribution, as well as raw material positions to assure a steady supply of product. Beginning in North America, we are implementing a new inventory management process which is expected to improve inventory levels. The unfavorable impact of inventories was partially offset by higher collections of trade accounts receivable in the first quarter of 2011 as compared to the first quarter of 2010.

Investing Cash Flow – The increase in cash outflow used for investing is due to the fact that we spent more in capital expenditures in 2011 as compared to 2010. We spent \$14.2 million on capital expenditures in the first quarter of 2011, compared to \$9.0 million for the same period last year. Capital expenditures for the fiscal year 2011 are expected to be \$90 to \$100 million.

Financing Cash Flow – The increase in cash flow provided by financing activities when compared to the prior year is primarily due to an increase in net borrowings. In the first quarter of 2011, we increased short-term borrowings by \$93.6 million to fund operating and investing cash requirements and to repurchase our common stock. In the first quarter of 2010, we increased short-term borrowings by \$28.9 million to fund operating and investing cash requirements.

The following table outlines the activity in our share repurchase program for the three months ended February 28, 2011 (in millions):

Number of shares of common stock	1.1
Dollar amount	\$50.3

There were no shares repurchased during the quarter ended February 28, 2010. As of February 28, 2011, \$309 million remained of the \$400 million share repurchase authorization.

[Table of Contents](#)

During the three months ended February 28, 2011, we received proceeds of \$17.1 million from exercised options compared to \$14.0 million in the same period in the prior year. We increased dividends paid to \$37.2 million for the first quarter of 2011 compared to \$34.4 million in the same period last year. Dividends paid in the first quarter of 2011 were declared on November 23, 2010.

Our ratio of debt-to-total capital (total capital includes debt and total shareholders' equity) was 38.1% as of February 28, 2011, down from 43.3% at February 28, 2010 and up slightly from 37.6% at November 30, 2010. The decrease in debt-to-total capital at February 28, 2011 as compared to February 28, 2010 is primarily due to an increase in total stockholders' equity.

Most of our cash is denominated in foreign currencies. We manage our worldwide cash requirements by considering available funds among the many subsidiaries through which we conduct our business and the cost effectiveness with which those funds can be accessed. The permanent repatriation of cash balances from certain of our subsidiaries could have adverse tax consequences; however, those balances are generally available without legal restrictions to fund ordinary business operations, capital projects and any possible future acquisitions. At quarter-end February 28, 2011, we temporarily used \$226.7 million of cash from our foreign subsidiaries to pay down short-term debt. At quarter-end February 28, 2010, we temporarily used \$313.6 million of cash from our foreign subsidiaries to pay down short-term debt. During a quarter, our short-term borrowings vary, but are lower at the end of a quarter. The average short-term borrowings outstanding for the three months ended February 28, 2011 and 2010 were \$272.5 million and \$353.0 million, respectively. Total average debt outstanding for the three months ended February 28, 2011 and 2010 was \$1,127.5 million and \$1,222.2 million, respectively.

The reported values of our assets and liabilities are significantly affected by fluctuations in foreign exchange rates between periods. At February 28, 2011, the exchange rates for the Euro, the British pound sterling, the Canadian dollar and Australian dollar were higher than the same period last year. Exchange rate fluctuations resulted in an increase in accounts receivable of approximately \$9 million, inventory of approximately \$9 million, goodwill of approximately \$22 million and other comprehensive income of approximately \$61 million since February 28, 2010. At February 28, 2011, the exchange rates for the Euro, the British pound sterling the Canadian dollar and Australian dollar were higher than at November 30, 2010. Exchange rate fluctuations resulted in increases in accounts receivable of approximately \$10 million, inventory of approximately \$9 million, goodwill of approximately \$38 million and other comprehensive income of approximately \$69 million since November 30, 2010.

[Table of Contents](#)

Credit and Capital Markets

Credit market conditions were volatile during 2008 and 2009 but have improved during 2010 and 2011.

Cash flows from operating activities are our primary source of liquidity for funding growth, dividends, capital expenditures and share repurchases. We also rely on our revolving credit facilities, or borrowings backed by these facilities, to fund seasonal working capital needs and other general corporate requirements. We generally use these facilities to support our issuance of commercial paper. If the commercial paper market is not available or viable we could borrow directly under our revolving credit facilities. The facilities are made available by syndicates of banks, with various commitments per bank. If any of the banks in these syndicates are unable to perform on their commitments, our liquidity could be impacted, which would reduce our ability to grow through funding of seasonal working capital.

We engage in regular communication with all of the banks participating in our revolving credit facilities. During these communications none of the banks have indicated that they may be unable to perform on their commitments. In addition, we periodically review our banking and financing relationships, considering the stability of the institutions, pricing we receive on services, and other aspects of the relationships. Based on these communications and our monitoring activities, we believe the likelihood of one of our banks not performing on its commitment is remote.

We hold investments in equity and debt securities in both our qualified defined benefit pension plans and through a rabbi trust for our nonqualified defined benefit pension plan. We estimate that total contributions to our pension plans in 2011 are expected to be approximately \$46 million, which compares to \$49.5 million of contributions in 2010. Future increases or decreases in pension liabilities and required cash contributions are highly dependent on changes in interest rates and the actual return on plan assets.

We believe that internally generated funds and the existing sources of liquidity under our credit facilities are sufficient to meet current liquidity needs and fund ongoing operations.

ACCOUNTING AND DISCLOSURE CHANGES

There were no significant accounting pronouncements issued recently that are expected to materially impact us.

FORWARD-LOOKING INFORMATION

Certain statements contained in this report are “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934, including those related to: the expected

[Table of Contents](#)

results of operations of businesses acquired by us, the expected impact of the prices of raw materials on our results of operations and gross margins, the expected productivity and working capital improvements, expected trends in net sales and earnings performance and other financial measures, the expectations of pension and postretirement plan contributions, the holding period and market risks associated with financial instruments, the impact of foreign exchange fluctuations, the adequacy of internally generated funds and existing sources of liquidity, such as the availability of bank financing and our ability to issue additional debt or equity securities, and our expectations regarding purchasing shares of our Common Stock under the existing authorizations. Forward-looking statements are based on management's current views and assumptions and involve risks and uncertainties that could significantly affect expected results. Results may be materially affected by external factors such as: damage to our reputation or brand name, business interruptions due to natural disasters or similar unexpected events, actions of competitors, customer relationships and financial condition, the ability to achieve expected cost savings and margin improvements, the successful acquisition and integration of new businesses, fluctuations in the cost and availability of raw and packaging materials, and global economic conditions generally which would include the availability of financing, interest and inflation rates as well as foreign currency fluctuations, and other risks described in the our Form 10-K for the fiscal year ended November 30, 2010. Actual results could differ materially from those projected in the forward-looking statements. We undertake no obligation to update or revise publicly, any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For information regarding our exposure to certain market risks, see "Market Risk Sensitivity" in the Management's Discussion and Analysis of Financial Condition and Results of Operations above and Item 7A, Quantitative and Qualitative Disclosures About Market Risk, in our Annual Report on Form 10-K for the year ended November 30, 2010. Except as described in Management's Discussion and Analysis of Financial Condition and Results of Operations above, there have been no significant changes in our financial instrument portfolio or market risk exposures since our November 30, 2010 fiscal year end.

ITEM 4 CONTROLS AND PROCEDURES

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as of the end of the period covered by this report. Based on that evaluation, the Company's

[Table of Contents](#)

Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective.

No change occurred in our "internal control over financial reporting" (as defined in Rule 13a-15(f)) during our last fiscal quarter which was identified in connection with the evaluation required by Rule 13a-15(a) as materially affecting, or reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS**

There are no material pending legal proceedings in which the Registrant or any of its subsidiaries is a party or in which any of their property is the subject.

ITEM 1A. RISK FACTORS

There have been no material changes in our risk factors from those disclosed in Part I, Item 1A to our Annual Report on Form 10-K for the fiscal year ended November 30, 2010.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table summarizes our purchases of Common Stock (CS) and Common Stock Non-Voting (CSNV) during the first quarter of 2011:

ISSUER PURCHASES OF EQUITY SECURITIES

<u>Period</u>	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</u>	<u>Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs</u>
December 1, 2010 to December 31, 2010	CS – 38,516 CSNV – 374,000	\$46.92 \$46.24	38,516 374,000	\$339 million
January 1, 2011 to January 31, 2011	CS – 0 CSNV – 340,000	\$00.00 \$46.12	0 340,000	\$324 million
February 1, 2011 to February 28, 2011	CS – 900 CSNV – 342,369	\$44.75 \$45.16	900 342,369	\$309 million
Total	CS – 39,416 CSNV – 1,056,369	\$46.87 \$45.85	39,416 1,056,369	\$309 million

[Table of Contents](#)

As of February 28, 2011, \$309 million remained of a \$400 million share repurchase authorization approved by the Board of Directors in June 2010. The repurchase authorization has no expiration date.

ITEM 6. EXHIBITS

CERTIFICATION

I, Alan D. Wilson, certify that:

1. I have reviewed this report on Form 10-Q of McCormick & Company, Incorporated (the “registrant”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
